

How to Make Your Own Happy Owl Pillow

Boy Owl

Girl Owl

Your kit should include:

- 2 large fleece circles for pillow
- 2 purple felt circles for eyes
- 1 pink felt bowtie/hair bow
- 8 blue felt circles for feathers
- 1 red felt heart

- 2 white felt circles for eyes
- 1 orange felt beak
- 2 yellow felt wings
- 2 black felt feet/eyelashes

- 2 black felt circles for eyes
- 1 black felt mustache
- 2 patterned felt wings
- 1 blue felt flower

What you need:

- 1 bag of batting and fabric glue

To Assemble:

1. Take the 2 large fringed fleece circles and put one on top of the other, matching up cut fringe as best you can.
2. Take a piece of fringe from the top layer and find the fringe piece **on the bottom to the left** of the top piece. Tie these two pieces together in a knot. Continue tying knots around the circle (leave three or four knots untied). **Note: Don't tie top fringe pieces to fringe pieces directly below them or your pillow will have gaps and the insides will fall out!**
3. Now take the fluffy white stuff (batting) and stuff the pillow.
4. Take a red heart and hold it in your hand, close your eyes, make a wish, and then put it inside your pillow with the batting.
5. Once all the batting is in the pillow, finish tying all the knots.
6. Glue the remaining pieces of felt onto the top to make it your very own HAPPY Pillow!
