

Tied Fleece Blankets

Wrap your heart in a cozy feeling of comfort and love while serving someone in need!

Materials:

- 2 yards of fleece Pins
 - Fabric scissors
- ❖ Fleece comes on a 60 inch wide bolt. Our blankets were 72 inches long x 58 inches wide. Your blankets could be smaller or larger, according to your personal preferences.

Instructions:

1. Preparation:

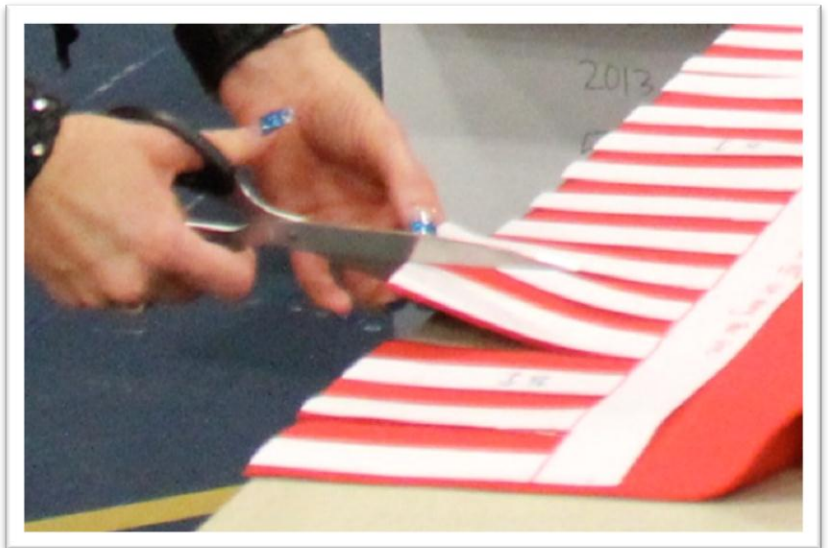

- a. Trim the salvage (raw) edge(s) off the fleece.
- b. Print and cut out the cutting template.

2. Cutting:

- a. You may tie two sides of the blanket (the top and bottom) or all four sides. If you choose to tie all sides, you will need to cut a 4 ½ inch x 4 ½ inch square out of each corner.
- b. To tie two sides of the blanket: Pin the template to the corner of the first side you are going to tie. Cut 4 ½ inch long strips that are 1 inch wide along the entire length of the blanket by using the template. Move your template as needed.

3. Tying:

- a. Tie each strip into a simple knot.
- b. You can also tie two consecutive strips together by using a double knot.
